Coding Interview of AI Engineer (Agents, Context & Evals) at Votee [VT26-AIE-ACE] [Hong Kong]
[Full Time]

Votee Hiring Team <tech@votee.com>
to me

May 19, 2026, 12:18 PM (17 hours ago)

Hi Danyal Faisal Khan,

I hope this message finds you well. I am excited to invite you to participate in a coding test as part of our selection process at Votee. The evaluation consists of two rounds, starting with the coding test. If you pass, you will be invited to the second round interview.

First Round - Coding Test:

The coding test is designed to assess your programming skills and problem-solving abilities. You will have until Saturday, May 23 2026, 23:59 HKT to complete the test. Here are the instructions:

Votee will conduct the coding test in a recorded live session. The task is to connect to an API that plays a Wordle-like puzzle. You can find the API documentation here: <https://wordle.votee.dev:8000/redoc>

Your task is to write a program that automatically guesses random words. You may use any frameworks, IDEs, chatbots, LLMs, or other resources to write your program and showcase your skills. However, if
